ABOUT ME

I am a MERN Stack Developer looking for a good opportunity to work as a Web developer or Front-End-Developer. I have skills in React,Node Js ,MongoDB, Express framework. I have been working on React for more than six months. I created some projects such as Youtube Clone app, Picture search app, and ERP Solution App. I am working as a Junior Software Developer in Passenger Drone Research Private Ltd.

My SkillSets are:-

HTML,CSS,JavaScript,Reactjs , NodeJS, Express, GraphQL, Apollo Client, Git, Github,ECMAScript 6,

PostgresSQL, MongoDB, D3.js, HighCharts.

Projects:-

Youtube Clone App:-

It is a Youtube clone app Developed in react with youtube api and hosted on vercel. It uses Youtube api to get your search value and then place it in the app and you can view your favourite youtube video on this.

Picture Search App:-

It is a Picture Search App Developed in React with pixel API and hosted on vercel. It uses Pexel Api to get your search value and then place it in the app and you can view your relevant photos by searching on them.

EPR-Sol:-

It is an Invoicing app which manages purchase and sales of data and keeps track of monthly gst payable amounts . It is a complete solution for any retail enterprise for billing and taxing solutions. The project is uploaded on github.

JOB ROLE :-

I am a Junior Frontend Developer in PDRL responsible for creating beautiful and responsive UI/UX and adding functionality to it.

MY USP:-

- Fast Learner
- Write Clean Code
- Love to take challenges

Certificate of Completion

This is to certify that **Ajit Mishra** successfully completed 52.5 total hours of **Modern React with Redux [2020 Update]** online course on March 26, 2021
