- Marathi

I am a MERN Stack Developer looking for a good opportunity to work as a Web developer or Front-End-Developer. I have skills in React,Node Js ,MongoDB, Express framework. I have been working on React for more than six months. I created some projects such as Youtube Clone app, Picture search app, and ERP Solution App. I am working as a Junior Software Developer in Passenger Drone Research Private Ltd.

My SkillSets are:-

HTML,CSS,JavaScript,Reactjs , NodeJS, Express, GraphQL, Apollo Client, Git, Github,ECMAScript 6,

PostgreSQL, MongoDB, D3.js, HighCharts.,Microsoft Azure

Other Key Things Worked on :-

- Work on CI/CD architecture.
- Work on Agile Development Method
- Familiar with Dev-Ops Practice.
- Create and Maintaining Server.

CURRENT JOB ROLE :-

I am a Junior Software Developer in PDRL.

Current JOB Role And Responsibility :-

- Responsible for Developing UI/UX
- Creating and Adding functionality
- Building REST-API
- Deployment and maintenance of Server and code.
- Training new joinees in companies working architecture.

Personal Projects:-

Youtube Clone App:-

It is a Youtube clone app Developed in react with youtube api and hosted on vercel. It uses Youtube api to get your search value and then place it in the app and you can view your favourite youtube video on this.

Picture Search App:-

It is a Picture Search App Developed in React with pixel API and hosted on vercel. It uses Pexel Api to get your search value and then place it in the app and you can view your relevant photos by searching on them.

EPR-Sol:-

It is an Invoicing app which manages purchase and sales of data and keeps track of monthly gst payable amounts . It is a complete solution for any retail enterprise for billing and taxing solutions. The project is uploaded on github.
